Some Major Results

- Strong integration of farm strategies in local development
 - Access to the market (Ca, Br, Cn, Ar, Mo, ...)
 - Land tenure : individual and common strategies (Ma, Cn, ...)
 - Adoption of new technologies
 - ...

⇒ *Multi-scale approach*

- Livestock strategies depend on policies
⇒ *Relevancy of public policy, capacity of government, local social network*
- Processes of adaptation to global change
 - Taking advantage of opportunities
 - Avoiding crashes and trying to limit constraints⇒ *Multifunctionality of livestock: several POV*
- Livestock values can't be evaluated only with \$
⇒ *Think in other criteria*
